# SHARPEN UP YOUR SHAVE GAME

Spring is in the air, time to freshen up your look. These pro tips & tricks will keep you on the cutting edge (literally) when it comes to rocking a clean shave all season long... and beyond.

## THE PREP STEPS:

### TIP 1 TIMING IS EVERYTHING

If you've got a dark beard, morning shaves help avoid the dreaded a 5 O'Clock shadow. If the morning rush gets you all cut up, shaving in the evening allows for ample time for proper prep. Translation: smooth shaving.

### TIP 2 TAKE A HOT SHOWER

A steamy shower before shaving opens pores and softens hairs (like when your barber applies hot towels). It'll also help prevent chances of nicks and bumps—go on, take the plunge.

### TIP 3 CUT TO THE CHASE

Before you even pick up the razor you need to apply shave cream—our cutting-edge cream cools-on-contact, soothes, softens and lifts hairs to help prevent razor bumps and burns—don't miss this crucial step.
